Samuel Morse

"I speak without exaggeration when I say I have constructed 3000 different theories in connection with the electric light, yet in only two cases did my experiments prove the truth of my theory."

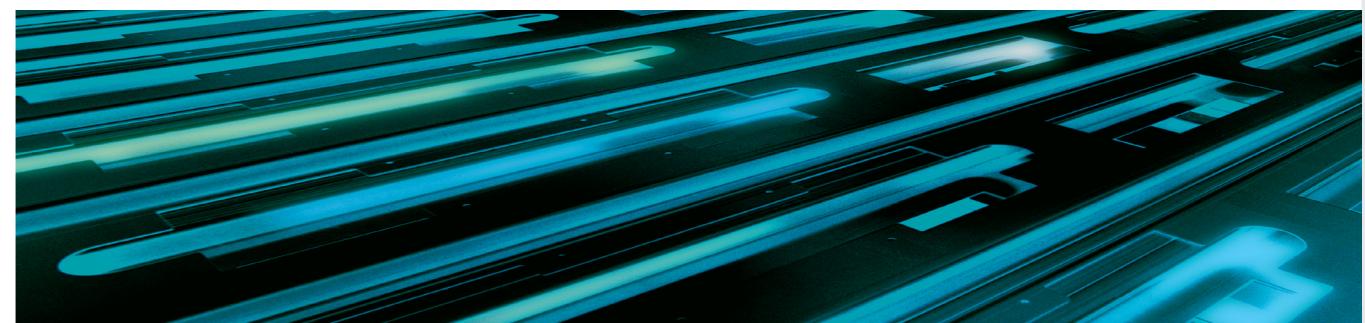

Thomas Edison

Team & Partners

Unycom has gained many years of professional experience in developing software solutions for a comprehensive IP management and in providing complementing services to our customers.

Our solutions follow an integrated approach of IP management that incorporates all key stakeholders. These include the management board and the several business units as well as inventors, patent attorneys and external suppliers that hold a key role in the IP management process. Among our longstanding customers are international corporations that profit from their immense innovative power. These corporations that are leading in terms of research and development also set new standards in IP management. With our software solutions they benefit from an integrated IP management that is aligned with their business strategy.

Unycom integrates all stakeholders into the IP management process.

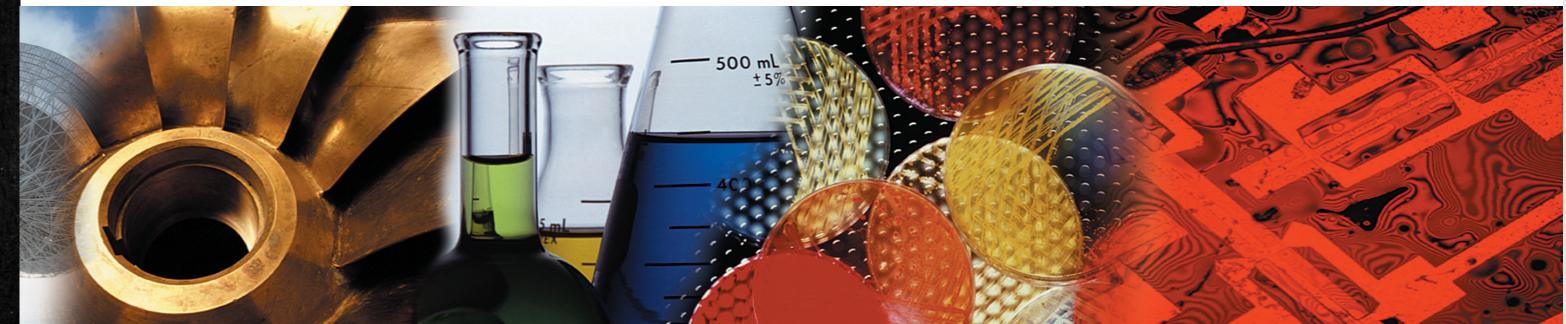

Keep on track!

Innovation and knowledge have no boundaries.
Your innovation is the driving force of your business.

Solutions for Integrated IP Management

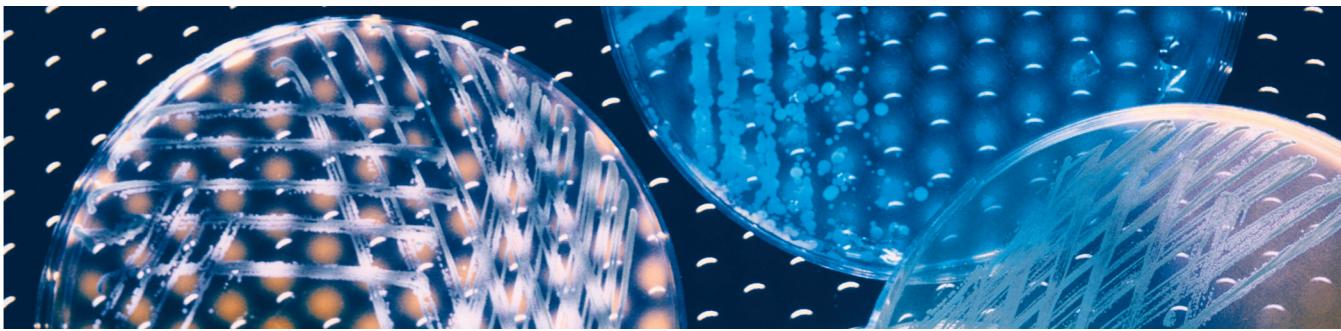

**Do you keep all your inventions
in your head?**

**How efficient are your archives?
In global business, knowledge is the key to your success.**

Experience & Tools

At **Unycom**, a symbiosis of IT specialists and legal experts guarantees professionalism both in terms of technology and subject matters. Many years of experience, innovative and economic thinking combined with the high quality standards of the **Unycom** team go into developing tools that offer an outstanding range of services. Our proximity to our customers guarantees an implementation of this range to perfectly match the needs of your company.

Unycom stands for innovation, professionalism and efficiency.

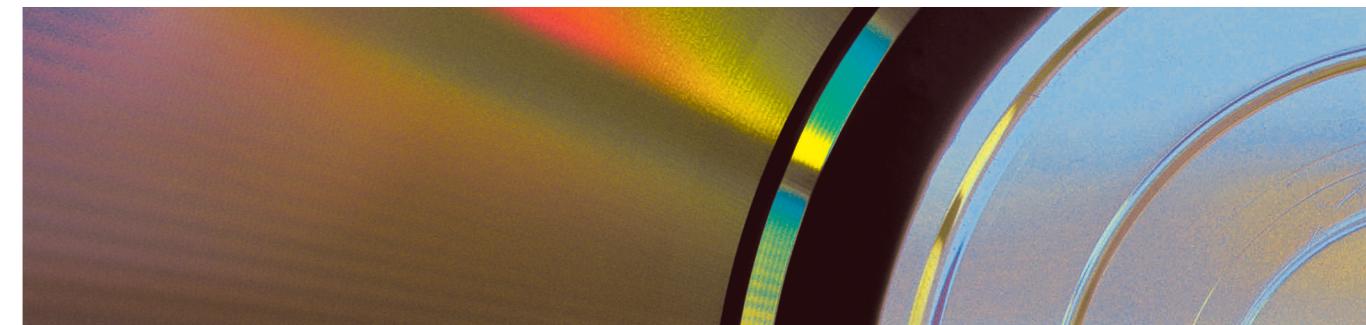

You can't risk a flop!

Keep on moving! Innovation is your capital.

Brains & Business

Over the last few years, the knowledge society has evolved into an information and innovation society. Research and development are experiencing a boom more than ever before. In today's knowledge-based business world, intellectual property has become a decisive competitive influence. Global business focuses on the exclusive exploitation of new ideas. Hence efficient and flexible intellectual property management must count as one of the fundamental principles of a successful business operation.

Unycom manages intellectual property.

It's all about you!

Your mind is the focal point, innovation is your opportunity.

Products & Services

Innovation is the lifeline of global business. Intellectual property and intellectual assets are the new areas that determine the market value of businesses. The standards are high, particularly concerning the management of intellectual property. Experts are in demand. Without the right professional instruments, you face a lengthy and time-consuming process of administration.

Unycom provides solutions.
